CERAMIC BELTS

## R766 and R766X

Aluminum Oxide / Zirconia Alumina / Ceramic Belts

### 30% + in Life vs. Competitive aluminum oxide belts

With their economical initial price and versatility, Norton Neon belts are a good choice for shops with numerous requirements – from roughing to finishing – on soft metals to hard-to-grind stainless and carbon steel.

#### Typical Applications/Markets:

- MRO
- Foundry
- Primary Metal
- Metal Fabrication
- Investment Castings
- Woodworking, Cabinet, Particle Board, and Plywood

**FEATURES & BENEFITS**

- Premium abrasive and aluminum oxide blend, ideal when purchasing criteria is a good-performing, economically priced, general purpose belt.
- Improved resin bond system and heavy duty backing improves edge retention and 30% + improvement in life vs. key competitors
- Available in Stock and Made-to-Order to your specific requirements in 24 - 400 grit range
- **R766** – Aluminum oxide and zirconia blend in P24-P80 grit range, durable Y-wt. waterproof polyester backing for extended life on dry grinding and for light- to moderately-demanding applications
- **R766X** – Aluminum oxide and Norton SG ceramic abrasive, P240-P400 grit range, flexible X wt. polyester backing fit most material and application requirements, from roughing to blending
