LOOK FOR THESE ICONS TO HELP YOU FIND THE PERFECT KNIFE:

All OLFA cutters and non-disposable scraper handles offer:

ANATOMY OF AN OLFA KNIFE

- 1 Heavy-Duty Snap-Off Blades give more cutting edges per blade than traditional two-sided blades
- 2 Stainless Steel Blade Channel extends the full length of the knife to provide a secure hold for ultimate cutting performance
- 3 No Tool Blade Change for easy and quick blade change
- 4 Available in Ratchet-Lock, Auto-Lock, and Locking Slide styles to fit every application
- 5 Many handle designs - from straight to ergonomic to fit every grip
- 6 Three body styles to withstand the toughest jobsite environments

HANDLE OPTIONS

CLASSIC

- High-impact ABS plastic handle
- Pre-loaded with Silver Snap-Off Blade

Available in All-Metal models

X-DESIGN

- Fiberglass-reinforced handle
- Pre-loaded with Ultra-Sharp Black Snap-Off Blade

NEW Aluminum handle option

COMFORT-GRIP

- Cushioned, anti-slip rubber handle
- Pre-loaded with Ultra-Sharp Black Snap-Off Blade

SIZES & APPLICATIONS

PRECISION 9mm 3/8"

- Cuts
 - cardboard
 - wallpaper
 - paper
 - foamboard
 - caulking
 - molding and more
- Silver, black or stainless blades
- 13 cutting edges/blade

HEAVY DUTY 18mm 3/4"

- Cuts all 9mm materials plus
 - drywall
 - roofing
 - flooring
 - rubber
 - linoleum
 - Kevlar®
 - gasket materials and more
- Silver, black, stainless steel or hook blades
- 8 cutting edges/blade

EXTRA HEAVY DUTY 25mm 1"

- Cuts all 18mm and 9mm materials plus
 - nylon
 - rope
 - high-pressure laminates
 - flexible plastics
 - expansion board
 - gasket materials and more
- Silver, black or hook blades
- 7 cutting edges/blade

BLADE LOCK OPTIONS

AUTO LOCK

- Fast blade activation and retraction between multiple standard cutting depths
- Blade locks into a pre-set detent with a secure hold during pushing and pulling movements
- Tactile and audible clicks at each depth stop
- Built to handle high amounts of pull force for safe and dependable cutting

RATCHET LOCK

- Unlimited blade positioning for custom cutting depths
- Brass locking pin secures blade in place for tough cutting jobs
- Secure wheel lock for cutting through thick materials
- Turn counter clockwise to unlock; clockwise to lock

LOCKING SLIDE

- Fast blade activation and retraction.
- Easily slide between multiple standard cutting depths

Kevlar® is a registered trademark of E. I. du Pont de Nemours and Company

METAL HANDLES

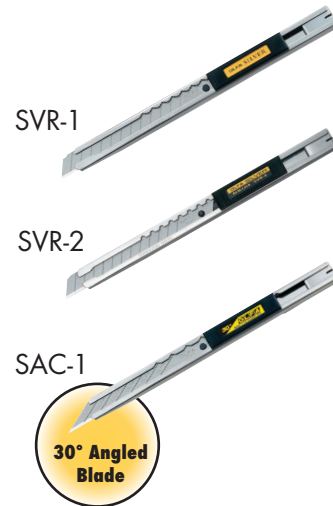

- Corrosion and chemical resistant body
- Ultra-slim for maneuverability
- Pocket-clip with built-in blade snapper (180 only)
- Pre-loaded with AB Silver Snap-Off Blade

BLADE SIZE	BLADE LOCK STYLE	SKU	MODEL #	DESCRIPTION	BLADE INCLUDED

MULTI-PURPOSE SCRAPERS

- Disposable for light-duty scraping, preparation, and clean-up
- Stainless steel blade
- Includes blade cover for safety
- Hang-hole for added convenience
- Symmetrical handle for both right- and left-handed use

BLADE SIZE	SKU	MODEL #	DESCRIPTION
1"	SCR-S	1086530	Multi-Purpose Scraper
2-1/3"	SCR-L	1086562	Multi-Purpose Scraper

HEAVY-DUTY CIRCLE CUTTER

- Cuts circles from 3" to 12" (7.6 cm to 30.5 cm)
- Blade depth adjusts for a variety of applications
- Adjustable pivot point for cutting through various thicknesses
- Perfect for scribing circles for carpet patching, cutting recessed lighting holes and more
- Includes LB Snap-Off Blade. Also works with LBB or L-SOL Blades.

SKU	MODEL #	DESCRIPTION	BLADE INCLUDED
CMP-2	9902	Heavy-Duty Circle Cutter	LB

FIVE-POSITION UTILITY KNIFE

- Fiberglass-reinforced symmetrical shaped handle
- Stainless steel blade channel
- For right- and left-handed use
- Uses SKB-2, RSKB-2 and HOB-2 replacement blades

SKU	MODEL #	DESCRIPTION	BLADE INCLUDED
UTC-1	9115	Five-Position Utility Knife	SKB-2

CARTON CUTTER

- Pocket-sized cutter
- Snap-off blades
- Uses CTB replacement blades

SKU	MODEL #	DESCRIPTION
CTN-1	9985	Snap-off Carton Cutter
CTN-1/40W	9880	Snap-Off Carton Cutter, 40 Unit Display
CTB-5	9986	Carton Cutter Replacement Blades, Pack of 5

ROLLED-MATERIAL CUTTER

- Solid base prevents damage to surface under the material being cut
- Large, ergonomic handhold for a comfortable and sturdy grip
- Preloaded with super sharp, long-life carbide rotary blade
- 12 cutting positions per blade for less blade changes and better efficiency

SKU	MODEL #	DESCRIPTION	BLADE INCLUDED
45-C	1069991	Rolled-Materials Cutter	RB45

PLASTIC / LAMINATE CUTTER

- High-impact ABS handle
- Aluminum die-cast blade slider
- For right- or left-handed use
- Includes three reversible tungsten steel blades (one loaded, two in handle)

SKU	MODEL #	DESCRIPTION
PC-L	1090486	Plastic/Laminate Cutter
PB-800	5014	Plastic/Laminate Blades, Pack of 3

TOP SHEET CUTTER

- Auto-pressure control system adjusts cutting pressure
- Cut top layer only while preserving material beneath
- Adjustable for cutting sheeting materials up to 0.1mm thick
- Blade storage in handle; includes two additional blades

SKU	MODEL #	DESCRIPTION
TS-1	1102638	Top Sheet Cutter Blade
TSB-1	1102639	Top Sheet Cutter Replacement Blades, Pack of 5

SERRATED EDGE SCISSORS

- Blades fully sharpened to tip for precision cutting
- One serrated edge blade to help prevent slippage during cutting
- Semi-blunt nose for safety
- Stainless steel aerospace-grade rivet for strength and heavy-duty cutting
- Rust and corrosion-resistant stainless steel
- Easily cuts toughest industrial materials such as polymers, vinyl, plastic, gaskets, rubber and more

**STAINLESS
STEEL
BLADE**

BLADE SIZE	SKU	MODEL #	DESCRIPTION

SPECIALTY

See olfa.com/craft for a full selection of OLFA creating tools.

Use the "Where to Buy" locator on olfa.com to find OLFA Professional products in a store near you or online.

THE ANATOMY OF A SAFETY KNIFE

- 1 Multiple blade variations available to limit exposure ensuring only the intended material is cut and not what is underneath
- 2 Integrated blade guard available for additional laceration protection
- 3 Tool-free Blade Change
- 4 Fiberglass-reinforced ABS handles stand up to the toughest warehouse and job-site environments

SEMI-AUTOMATIC

- Spring activated blade retraction

FULLY AUTOMATIC

- Blade operates independently of the blade slider and self-retracts once the blade loses contact with the cutting surface.

CONCEALED

- Zero blade exposure because the blade is always concealed within cutting channel

FOOD SAFE

- Specifically designed for use in food production environments

SEMI-AUTOMATIC HANDLES

- Spring-activated, self-retracting blade
- High-impact ABS handle
- Textured blade slide with thumb stop for precise control
- Heavy-gauge stainless steel channel provides secure blade hold
- Lanyard hole for tethering

SKU	MODEL #	DESCRIPTION	BLADE INCLUDED	CUTTING DEPTH
SK-4	9048	Self-Retracting Safety Knife	SKB-2	0.75"/19mm
SK-4/24	1088215	Self-Retracting Safety Knife, 24 Unit Display	SKB-2	0.75"/19mm

CONCEALED HANDLES

- Protected blade exposure for ultimate safety
- Symmetrical handle for right- and left-handed use
- Integrated tape splitter
- SK-10 comes with four-position blade for multiple cutting edges
- 45-C rolled material cutter has 12 cutting cutting positions per blade for less blade changes and better efficiency
- Lanyard hole

OLFA LIMITED LIFETIME WARRANTY

What does Limited Lifetime Warranty mean? It means OLFA stands behind everything we make and guarantee our products to be free of defects in material and workmanship to the original purchaser for the lifetime of the product. Damaged, abused, altered, repaired or improperly used products are not covered. Have a warranty claim? See olfa.com/professional/contact to submit a claim or call Customer Service at 1-800-962-OLFA (6532).

THE OLFA® STORY

The OLFA name is an abbreviation of two Japanese words “to break a blade.” The OLFA logo itself, a parallelogram, is in the shape of a typical OLFA snap-off blade. The signature OLFA yellow corporate color is to signify our commitment to quality and safety and has become recognized worldwide.

The history of OLFA® begins with its founder, Yoshio Okada (1931–1990), an inventor in search of a consistently sharp knife blade. While on his quest, two observations inspired him: the clean, sharp cutting edge produced when glass breaks and the simplicity of chocolate bars snapping into segments.

Combining the two allowed him to invent a revolutionary new type of cutting tool – the “snap-off blade,” – a design that allowed users to quickly restore a sharp edge in seconds by simply snapping off a scored segment. With a simple snap, a blade can be renewed up to 13 times, saving builders and contractors time and money while improving productivity.

Okada would go on to introduce the world’s first rotary cutter in 1979, as well as extra heavy-duty 25mm blades in 1988.

1956

OLFA has become the standard of cutting excellence, embraced by professional craftsmen and women worldwide. Look to OLFA to continue to build on a legacy of creating the best cutting tools with new and innovative products designed to save users time, enhance productivity, and ensure their safety.
